

Efanova Julia, QA Engineer

Russia, Penza 8 (927) 382-17-49, efanova.julia@mail.ru, <https://t.me/realnish>
Portfolio / Code Examples: <https://gitlab.com/efanova-ju/uprisingQA>

Summary

QA Engineer with 6 years of experience in testing SaaS platforms. For the past 1.5 years, I have been developing and maintaining automated test suites in Java for web services. Proven track record of participating across the full Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC) within Scrum frameworks.

Work Experience

Moe Delo (ООО «Моё дело») | www.moedelo.org

A leading SaaS accounting service ranked among the top 3 in the accounting outsourcing market, serving 70k+ clients with a team of 300+ employees.

Senior Functional QA Engineer | *December 2021 – March 2026*

- Contributed to 3 cross-functional teams from 5 to 10 members, performing integration and End-to-End (E2E) testing for banking operations, BPM, and CRM systems.
- Accelerated product delivery by introducing early requirements analysis and testing APIs via Postman, Swagger, and SoapUI before frontend readiness, speeding up time-to-market for 40% of tasks.
- Executed regression testing pipelines in TeamCity. Isolated defects by analyzing logs in Kibana and monitoring Kafka events and consumer lags through AKHQ.
- Utilized Linux/Bash and Git for branch management and navigation within GitLab/GitHub repositories.
- Leveraged Docker Desktop and Docker Hub to build images and run containers, ensuring consistent local test environment setups.
- Refactored and updated 250 legacy UI and REST API automated tests, and developed over 100 new automated tests using Java and Selenium WebDriver within IntelliJ IDEA.

Functional QA Engineer | *April 2020 – November 2021*

- Performed functional, integration, and regression testing, successfully delivering 95% of development tasks on schedule for an online accounting service using advanced test design techniques.
- Conducted data validation and backend verification in MySQL and PostgreSQL databases utilizing DBeaver.

- Created and maintained comprehensive test documentation in YouTrack and service specifications in Confluence for complex accounting processes and integrations with banks and marketplaces.

Education, Training & Certification

Penza State University (Russia) | 2001 – 2006

Degree in Computer Systems, Complexes and Networks

(Equivalent to B.S. / M.S. in Computer Engineering)

REST API Testing | Olga Nazina's QA Course (Score: 82/100) | 2022-2023

<https://cert.software-testing.ru/338431798450061897>

English language EF SET Certificate <https://cert.efset.org/en/U3pAEg>

Skills & Tools

- **QA Methodologies:** Test Design Techniques, SDLC, STLC, Agile/Scrum.
- **Testing Tools:** DevTools, Postman, Swagger, SoapUI, YouTrack, Confluence.
- **Automation & Core Tech:** Java, Selenium WebDriver, RestAssured, JUnit, IntelliJ IDEA.
- **Databases & Infrastructure:** SQL, PostgreSQL, MySQL, DBeaver, Docker Desktop, Docker Hub.
- **CI/CD & Version Control:** TeamCity, Git, GitHub, GitLab, Linux/Bash.
- **Monitoring & Observability:** Kibana (ELK Stack), Kafka, AKHQ.
- **Languages:** Russian (Native), English (B2).
